Geethesh Pandiarajan Product Manager

geetheshpandiarajan774@gmail.com | 3142502788 | USA | LinkedIn

Summary

Results-driven Product Manager with 7+ years of experience leading cross-functional teams and managing end-to-end product lifecycles. Skilled in agile methodologies, roadmap planning, requirement gathering, and data-driven decision-making. Proficient in stakeholder management, analytics, cloud platforms, and emerging technologies. Adept at optimizing workflows, enhancing product adoption, and delivering measurable business impact in dynamic, fast-paced environments.

Technical Skills

- **Product Management & Strategy**: Product Roadmaps, MVP Definition, Requirement Gathering, Backlog Management, Prioritization (MoSCoW, RICE, Kano, Business Value Scoring), OKRs & KPIs, Feature Breakdown, Product Vision, Go-to-Market Strategy, Competitive Analysis, Market Research
- **Agile & Project Management**: Scrum Framework, Kanban, Sprint Planning, Daily Standups, Retrospectives, Release Planning, Risk Management, CI/CD, Change Management, Project Scheduling (MS Project, Azure Boards), Team Leadership, Cross-functional Collaboration
- **Wireframing & Prototyping**: Figma, Adobe XD, Lucidchart, Miro, MS Visio
- **Data Analytics & Visualization**: AWS QuickSight, Tableau, Power BI, Mixpanel, Looker, Hotjar, Google Analytics, SQL, Python, Excel Dashboards
- **Cloud Platforms & Monitoring**: AWS (CloudWatch), Azure, Azure DevOps
- **API Integration & Management**: REST APIs, Postman, Salesforce Integration
- **User Research & Testing**: User Interviews, A/B Testing, Surveys, Usability Testing, User Story Mapping, UAT Test Cases
- **Documentation & Collaboration**: Confluence, Jira, Trello, Notion, Git, Slack, Microsoft Teams, Zoom, Technical Specifications, Release Notes, Roadmaps, Training Material
- **Financial & Business Acumen**: Budgeting, ROI Analysis, Cost-Benefit Analysis, Business Case Development
- **Leadership & Continuous Improvement**: Team Mentorship, Conflict Resolution, Process Optimization, Innovation Management, Agile Mindset, Stakeholder Communication, Executive Reporting, Presentation Skills

Professional Experience

Product Manager, Affirm — 01/2024 – Present | Remote, USA

- Worked on AI-Driven Credit Decisioning Platform, conducting discovery workshops, capturing 100% of business requirements, mapping workflows in MS Visio, and documenting product vision in Confluence. Created executive-ready roadmaps and strategy presentations using MS PowerPoint.
- Defined the MVP for automated loan underwriting, covering 60% of high-priority use cases by applying MoSCoW prioritization, user story mapping, and business value scoring. Managed risk registers, release planning in MS Project, and backlog grooming in Jira to ensure timely and strategic delivery.
- Collaborated with Data Engineering and Analytics teams to integrate internal and external financial data sources. Monitored data pipelines and model health using AWS CloudWatch, created integration flow diagrams, and maintained comprehensive technical documentation in Confluence.
- Directed Agile ceremonies across four distributed squads, including sprint planning, backlog grooming, and retrospectives. Tracked KPIs and sprint progress with Jira dashboards, presenting updates, demos, and insights to executives using MS PowerPoint.
- Conducted iterative feedback sessions with internal and external stakeholders, with credit analysts and product users. Analyzed adoption and performance metrics via QuickSight dashboards, resulting in a 50% drop in loan approval time and 70% adoption of the platform within 6 months.

Product Manager, LTI Mindtree Limited — 07/2021 – 01/2023 | Chennai, India

- Spearheaded product strategy and roadmap for 5 enterprise applications, conducting client workshops, market research, competitor analysis, and requirement gathering, utilizing Jira, Confluence, and stakeholder management to secure 35 projects and align cross-functional teams effectively.
- Prioritized product backlog, performed feature breakdowns, and planned iterative Agile sprints, using Scrum, Kanban, and story mapping techniques to optimize delivery, streamline workflows, and ensure alignment with OKRs, KPIs, and business objectives for multiple stakeholders.
- Led cross-functional teams including developers, QA, UX/UI designers, and DevOps engineers to design, develop, and release features, leveraging cloud technologies, CI/CD pipelines in Azure DevOps, analytics tools, and emerging tech to enhance competitiveness and adoption.
- Facilitated end-to-end product lifecycle management, from requirements elicitation, technical specification translation, and wireframing to testing, deployment, and post-launch support, ensuring 95% on-time delivery while using tools like Figma, Jira, Git, and Azure Boards.
- Defined, tracked, and optimized OKRs and KPIs, applying data-driven decision-making, A/B testing, and user feedback analysis through tools like Google Analytics, Power BI, and Tableau, achieving 10% YoY performance improvement and 15% revenue growth.

Product Manager, Larsen & Toubro Limited — 07/2018 – 07/2021 | Chennai, India

- Led end-to-end product lifecycle for GIS and infrastructure solutions across 20+ projects, utilizing roadmap planning, stakeholder engagement, and product strategy methods like Kano Analysis and MoSCoW prioritization, ensuring alignment with business goals and operational compliance.
- Collaborated with cross-functional teams to translate requirements into user stories, manage scrum backlogs, run sprint planning, and implement agile methodologies, ensuring timely, high-quality product releases while monitoring risks, dependencies, and regulatory compliance.
- Designed and implemented data-driven monitoring solutions using SQL, Python, and GIS analytics, generating actionable insights, optimizing operations, reducing costs by 10%, and presenting findings through Excel dashboards and PowerPoint decks for stakeholder decision-making.
- Standardized CI/CD workflows and deployment pipelines using Azure DevOps, improving collaboration, tracking release performance, and ensuring version control, QA compliance, and regulatory adherence while streamlining engineering and operational processes.
- Conducted user research, competitor analysis, KPI tracking, and compliance audits using tools such as Jira, Confluence, Tableau, and Excel, applying product management methods like OKRs, user story mapping, and continuous improvement to enhance product adoption.

Education

Saint Louis University, St. Louis, MO, USA – Master's Degree in Information Systems — 01/2023 – 05/2024
Anna University, Chennai, India – Bachelor's Degree in Geoinformatics — 07/2014 – 05/2018

Certificates

- **Certified ScrumMaster (CSM)**
- **Certified Scrum Product Owner (CSPO)**
- **PMP (Project Management Professional)**
